Right to Work: Eligible for full time employment in the UK (Graduate Route Visa)
United Kingdom

PROFESSIONAL SUMMARY

Performance driven Security Operations Centre (SOC) Analyst with over 2.5 years of international experience across Tier 1 and Tier 2 operations in the Banking, Aviation, and Telecommunications sectors. Proven track record in orchestrating real-time DDoS mitigation for critical infrastructure and automating alert triage to improve operational efficiency by 30%. Currently completing an NCSC Certified MSc in Cyber Security at the University of Hertfordshire, with a research focus on AI augmented incident response and advanced digital forensics.

SKILLS

- **Security Operations (SIEM/EDR):** Microsoft Sentinel, IBM QRadar, McAfee SIEM, CrowdStrike Falcon, Microsoft Defender for Endpoint, Cortex XDR
- **Threat Detection & Analysis:** Threat Intelligence Analysis, IOC Investigation, Threat Hunting, Behavioral Anomaly Detection, Malware Analysis
- **Frameworks & Compliance:** MITRE ATT&CK Mapping, NIST CSF, ISO 27001, GDPR Compliance
- **Infrastructure & Tools:** WAF Monitoring, CyberArk (PAM), Forcepoint DLP, NetScout Arbor, Python for Security Automation, SOAR Playbook Development

PROFESSIONAL EXPERIENCE

Air Arabia | Associate Infrastructure Analyst (SOC Tier 2) | 2023 – 2024

- **Orchestrated real-time triage** for 1,000+ daily security alerts using Azure Sentinel, maintaining 100% adherence to critical incident Service Level Agreements (SLAs).
- **Engineered custom automation scripts** in Python to enrich alert context, reducing the mean time to investigate (MTTI) by 30% and optimizing Tier 1 analyst bandwidth.
- **Spearheaded threat detection** initiatives using Microsoft Defender, identifying and neutralizing stealthy lateral movement attempts within the aviation network.
- **Collaborated with cross-functional NOC teams** to resolve high-severity infrastructure incidents, ensuring continuous business availability for global flight operations.
- **Awarded Best Performance Award (2023)** for excellence in incident remediation and proactive tool tuning.

Nations Trust Bank | *Information Security Analyst* | 2022 – 2023

- **Led the mitigation of a large-scale live DDoS attack** on core banking systems, safeguarding financial assets for 1M+ customers and preventing service disruption.
- **Monitored and analysed** critical security events using McAfee SIEM and CrowdStrike, performing deep-dive forensic investigations into confirmed Indicators of Compromise (IOCs).
- **Enhanced the SOC Knowledge Base** by developing 5+ new incident response playbooks, standardizing recovery procedures for ransomware and phishing scenarios.
- **Supported Data Loss Prevention (DLP)** initiatives using Forcepoint, identifying and mitigating unauthorized data exfiltration risks across the enterprise.

SLT-Mobitel | *Information Security Analyst Intern* | 2022

- **Configured 15+ custom correlation rules** in IBM QRadar, reducing false-positive alert noise by 30% and improving overall detection accuracy.
- **Monitored high-volume web traffic** via WAF and managed privileged access through CyberArk to ensure stringent identity and access management (IAM).
- **Assisted in the containment** of multiple network-based intrusion attempts, working alongside senior analysts to document root cause analysis (RCA) findings.

PROJECTS

Advanced SOC Dashboard & Threat Intelligence Platform | 2025

- Developed a real-time platform aggregating 100+ threat intelligence feeds using Python and React, reducing manual data aggregation time by 50%.
- Integrated severity-based automated alerting and email notification systems to prioritize critical threats according to the MITRE ATT&CK lifecycle.

SIEM Log Automation Engine

- Designed a Python-based tool to automate the analysis of raw system logs, successfully identifying patterns of credential stuffing and brute-force attacks.

EDUCATION

MSc Cyber Security – University of Hertfordshire (2024 - 2025)

BSc(Hons) Information Technology Specialized in Cyber Security – SLIIT (2020 - 2024)

CERTIFICATION

- **IBM Certified Cyber Security Analyst** (Professional Certificate)
- **RedHat Linux Fundamentals** (System Administration)
- **Azure Cloud Services** (Fundamentals)
- **Best Performance Award** – Air Arabia (2023)
